Why Work for Us?

The Federal Railroad Administration's mission is to enable the safe, reliable, and efficient movement of people and goods for a strong America, now and in the future.

The Federal Railroad Administration (FRA) promulgates and enforces rail safety regulations; consolidates government support of rail transportation activities; administers financial assistance programs; conducts research and development in support of improved railroad safety and efficiency, and national transportation policy, including improved intercity passenger service.

FRA is committed to fostering a diverse, highly skilled workforce capable of meeting or exceeding our strategic goals with efficiency, innovation, and a constant focus on better serving our customers.

You will serve as a Railroad Safety Inspector (Grade Crossing and Trespasser). As an inspector, you will enforce Federal safety and health regulations that apply that apply to the railroad industry in order to drive improvements in railroad safety. The Grade Crossing and Trespass Outreach Inspector (GXI) is required to conduct independent inspections of all types of highway-rail grade crossings, proceeds and programs for the purpose of determining compliance with Federal rules and regulations, to write reports of these inspections, and to recommend institution of enforcement/compliance actions when violations are found. Additionally, the GXI is responsible to investigate trespassing incidents on railroad property and highway-rail crossing collisions to drive programs to prevent trespassing on railroad property and highway-rail crossing collisions both of which lead to accidents and casualties.

Summary Of The Essential Job Functions: *As a Railroad Safety Inspector (Grade Crossing and Trespass), you will be required to:*

- Performs inspections of railroad Emergency Notification Systems (CFR 49 Part 234, Subpart E). Performs inspections of railroad records of U.S. DOT Crossing Inventory Reporting (49 CFR Part 234, Subpart F). Performs inspections of railroad and public authority compliance with the Train Horn Rule and Quiet Zones (49 CFR Part 222). Serves as a subject matter expert on 49 CFR: Part 222,
- Investigates independently, or as part of a team, grade crossing collisions and trespasser incidents/accidents as assigned. Prepares any necessary analysis and recommendations to Senior Managers and Specialists.
- Where noncompliance of Federal rules, regulations, or standards is noted, the inspector initiates immediate correction and, if in the opinion of the inspector,

the condition is such as to present a serious hazard, a violation report is issued. The incumbent may then be required to appear as the expert witness in a court trial.

- Represents the FRA and District while participating in initiatives, studies, surveys, reviews, promotions, etc., regarding highway-rail crossing and trespasser programs with local communities, states, the railroad industry and FRA's safety partners. Represents FRA before state and local legislatures and planning bodies, as assigned, providing information and accurately communicating Departmental policy regarding crossing and trespasser strategies.

What Are The Minimum Qualifications For This Position?

You must have at least one year of specialized experience in or directly related to the essential job functions described above. For Federal employees this experience must have been at the next lower grade level. If you want us to consider experience you obtained outside the Federal Government, it must have been at that same level of complexity. The Qualification Standards state you MUST have demonstrated knowledge in the following areas:

- Working knowledge of Federal regulations, railroad industry and safety partners' practices related to crossing safety and trespass prevention initiatives.
- Thorough knowledge of the economic and practical operating considerations as well as the safety concerns involved in the physical and operating characteristics of highway-rail crossings;
- Broad knowledge of accident investigative techniques as applied to the railroad industry.
- Skill to apply accident investigation techniques to: (1) determine the best method of obtaining compliance with Federal highway-rail crossing regulations on all railroads in an assigned territory; and (2) investigate reportable accidents to determine probable cause and whether or not Federal regulations were violated.
- Knowledge of a wide range of qualitative and/or quantitative methods for assessment and improvement of program segments.
- Working knowledge of Federal regulations and program policies regarding trespasser prevention and highway rail grade crossing safety to implement a variety of programs and initiatives in the District.
- Knowledge of Operation Lifesaver, safety partners, and railroad industry practices related to railroad safety initiatives.
- Working knowledge of State grade crossing improvement programs, Section 130 funding, and general knowledge of other funding sources for safety initiatives.
