Mr. David Roy
Massachusetts Central Railroad Corporation
General Manager
2 Wilbraham Street
Palmer, MA 01069

January 21, 2025

Dear Mr. Roy:

This letter responds to the Massachusetts Central (MCER) submission dated January 15, 2025, to the Federal Railroad Administration (FRA) seeking approval of its material modifications to the MCER Engineer Certification Program received by FRA on January 14th, 2025. MCER has complied with FRA's procedures for submission and approval of programs as described in Appendix B to 49 CFR part 240. FRA reviewed the railroad's program modifications and determined that the railroad's program modifications conform with the requirements of 49 CFR part 240 for the reasons discussed below.

Your submission package states that no labor organizations represent the railroad's employees.

The program modifications are consistent with the model of the previously approved railroad programs. FRA understands that the modifications are intended to provide more detail to the engineer certification process and updated contact information. Additional modifications to the submission also addressed deficiencies with the standard requirements of 49 CFR part 240, Appendix B. The improvements enhance qualifications for DLSEs. Standards have been set concerning re-qualifying over a specific territory. Section Five of your engineer training program has established detailed training standards.

Please contact us with any questions regarding this submission at (202) 366-0978 or FRAOPCERTPROG@dot.gov or Kevin.Lewis@dot.gov or Kurt.Erickson@dot.gov

Sincerely,

Kevin Lewis
FRA Program Manager
Engineer and Conductor Certification & Training
