Houston, TX 77015

April 21, 2025

Dear Mr. Fuentes:

This letter responds to TEMCO's submission dated April 11, 2025, to the Federal Railroad Administration (FRA) seeking approval of its material modifications to the TEMCO Conductor Certification Program received by FRA on April 11, 2025. TEMCO has complied with FRA's procedures for submission and approval of programs described in Appendix B to 49 CFR part 242. FRA reviewed the railroad's program modification and determined that the railroad's program modification conforms with the requirements of 49 CFR part 242 for the reasons discussed below.

Your submission package stated that no labor organizations represent the railroad's employees.

The program modifications are consistent with the model of the previously approved Class III railroad programs. FRA understands that the modifications are intended to provide more details about the conductor certification process and update contact information. Additional modifications to the submission also addressed deficiencies with the standard requirements of 49 CFR part 242, appendix B. Standards have been set regarding re-qualifying over a specific territory. Detailed training standards have been established in Section Four of your conductor training program.

Please continue your efforts to improve railroad safety on your system.

Please contact us with any questions regarding this submission at (202) 366-0978 or FRAOPCERTPROG@dot.gov, Kevin.Lewis@dot.gov, or Kurt.Erickson@dot.gov.

Sincerely,

Kurt Erickson
FRA Rail Safety Specialist – Certification
